

**BAŞAKŞEHİR PARK / PLUS HOMES**

İSTANBUL / BAŞAKŞEHİR

**Proje Durumu:**  
**Hemen Teslim**

**Fiyat Aralığı:**  
**260,428 - 260,428 \$**

- Location : Istanbul European Side
- Disctric : Basaksehir
- We create one of the best projects of Başakşehir with Basaksehir Houses, which will be rising next to Basaksehir Shopping Center and Basaksehir Residence. We have established a modern city-in-city with Basaksehir Park House project, which consists of 232 flats in total in 12- and 18-floor blocks on a land exceeding 15 thousand square meters. Hosting several projects such as Sağlık Kent (Health City), a university, the 3rd airport and shopping center, Başakşehir is gaining value as the fastest developing territory of Istanbul.
- You will be able to reach the 3rd bridge which is under construction, you will neighbor on the new city which is planned to be established between North Marmara highway and Tem highway and you will take place in a very close location to the 3rd airport. On the other hand, you will be able to reach Atatürk Airport, Atatürk Olympic Stadium and Istanbul Main Bus Terminal by your car in 15 minutes. Your children will be able to go to school in a short time by the help of education institutions located in the territory.
- We have designed it for your safety. We have built an accommodation unit where security is monitored 7/24, so that you can feel comfortable. We have constructed earthquake-resistant and safe buildings for you to sleep peacefully. We have taken care of placing some technical features into the buildings, such as fire sensors, smoke detectors in common fields for fire. Besides, for each block, we have installed two high-capacity, cutting-edge elevators, one of which serves the fire escape hall and the other for load carrying.
- 
- Completion Date: Basaksehir Park Plus on May 2015
- Basaksehir Park on November 2015

## BASAKSEHIR

While the mobility in many areas of Istanbul continues, some specific areas are standing out due to increasing housing prices of real estate. Among these regions, Basaksehir is the notable one with the housing investments. Due to it's appropriate location of transportation infrastructure, Basaksehir is a rising real estate investment area. The housing investments caused a population growth in Basaksehir, and the region has been upgraded to district status.
